

INTERVIEW PREP

Interview Prep is a web-based tool that allows users to practice their interview skills by creating their own mock interviews. With access to this tool, employees can practice their interview skills and prepare for success.

Interview Prep allows you to choose from over 7,000 interview questions, to create your own critique it for improving your interview skills.

Interview Prep makes it easy to use this tool, you do not need to be on the FAA network. Kindly register with your faa.gov email address.

Get started faa.interviewprep.app

custom interview, save it, share it, and Interview Prep is part of the ATO Career Planning Program's many resources for career planning and development.

Interview Prep is especially useful for our operational employees in the field because it is available around the clock every day of the week through any computer or mobile device.
